

Dear FDA,

I am writing to express my concern over the genetically engineered (GE) food, to ask the policies be changed, and to support all the docket # 00P-1211/CPI, specifically:

- All GE foods should be labeled so I can and have a choice.
- GE foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing.
- There should be a moratorium on GE foods and crops until long term studies show they are safe for human health and the environment.

GE Food Moratorium  
Petition
